-

Our objective is to promote an all embracing holistic approach to providing the appropriate service for the homeless in a safe, happy and peaceful environment where all homeless will be encouraged to access various facilities & agencies tailored to their needs, interests and skills.

-

Our ultimate goal is to empower and bring motivation to the homeless by liaising with other networks and through our referral system.

-

To involve the homeless in volunteering in the local community

-

To give the homeless the opportunity to gain new experiences, transferable skills and “broaden” their horizons in the community.

-

To provide quality and flexible services for people’s mental health wellbeing to their complex needs

-

To provide educational services designed to enlighten the homeless about relevant and social issues

-

To provide a mentoring service for the homeless in the community

To promote a "Feed the Homeless project/Clothing Bank" to combat poverty

-

Culturally specific advice and providing clear information to the homeless

-

The homeless experiencing new opportunities and activities

-

The homeless having valued ordinary roles in the community

-

The homeless to increase their network of friends, acquaintances to combat isolation

-

Our aim is to achieve excellence; we believe that staff training and a systematic approach to continuing good practice through monitoring, recording and constant evaluation of targets are essential ingredients for quality
